

COSMETIC DENTISTRY GUIDE

The Go-to Guide for Everything You Need to Know to
Make an Educated Decision on Your Cosmetic Dentistry Needs

Welcome and Congratulations!

Dear Friend,

My name is **Dr. Oleg Klempner**, and right off the bat, I want to congratulate you on making the wise decision that'll help change your life! By requesting a copy of our Cosmetic Dentistry Guide.

My ultimate goal is simple: to give patients smiles that they love. Why? Because in my years of practice, I've found that there's almost nothing that can make as big a difference in your health, self-confidence, and overall quality of life as your smile.

Everything else can be working like clockwork – job situation, family, friends and relationships. But if you can't experience the simple act of savoring the foods you love most or if you're embarrassed to smile or even engage in conversation because of your teeth.

Then no matter how great everything else is going, the real joy you desire long for is missing.

I'm here to tell you that you don't have to settle for that kind of life any longer. I know this for a fact because I have seen countless individuals who used to suffer teeth and jaw pain. No longer do they live with pain in their mouth - now they are eating and enjoying the food just like the old days.

I've seen patients walk in my doors seemingly ashamed to smile, full of fear and anxiety and later walk out those same doors glowing with a lovely smile as radiant as the sun.

Thanks to the miracles of modern medicine and technology it's now not only possible, it's far more achievable than you probably have ever imagined.

Whether you're reading this guide for yourself or for a loved one, you're in the right place. We've designed this to provide you with all the necessary information you need to make an educated decision regarding what is best for overall health and happiness.

With all that said, let's get started!

MEET YOUR DOCTOR

Dr. Oleg Klemptner

Oleg Klemptner, DDS, gives you and all of his patients at Diamond District Dental in New York City the kind of warm, personalized, state-of-the-art dental care that he would want himself. His goal is to help you achieve and maintain optimal dental health — and have fun doing it.

After receiving a bachelor's degree from New York University (NYU), Dr. Klemptner earned his DDS at NYU's prestigious College of Dentistry in 1991. He completed his dental residency at Bryn Mawr Hospital in Pennsylvania in 1992 and has been in private practice ever since.

Dr. Klemptner is a lifelong learner and innovator. He was one of the first private practice dentists in the United States to use cutting-edge technology, such as dental lasers, computer-assisted bite analysis, and 3D technology.

Since entering private practice, he has taken hundreds of hours of advanced education. His commitment to staying current on research and technologies allows him to provide you with the highest level of dental services possible.

His philosophy: "I take the needs of our patients very seriously, but I don't take myself very seriously."

What Our Patients Are Saying

1 review

★★★★★ 3 months ago

I went into their office with a dental disaster. I had missing teeth and other dental problems since childhood that were never adequately dealt with, and then had a partial bridge that had been in way, way too long and was causing serious problems, in addition to years of grinding that hadn't been dealt with because of the bridge. After the initial consult I almost had a heart attack when I realized the level of work that needed to be done, but that's the breaks. The staff at the office were just fantastic. They walked me through a lot of questions and a plan for a long-term fix of my mouth. Dr. Klempner was the kindest and most thoughtful dentist I've ever visited, and the other direct staff were similar to interact with. I was pretty terrified at various points, but after about 5 months of appointments (yup it was that bad, and they were each really concrete and clearly-intentioned appointments) I walked out of the office with the nicest smile I've had literally my entire life and plan to continue going there for annual check-ups etc etc.

★★★★★ 4 months ago

Dr. Klempner took the time to clearly explain my treatment plan and what I needed to do on my end to prevent further issues, something none of my previous dentists had ever done. He answers all questions and is very upfront about what you should expect.

The office is also immaculately clean, with state of the art equipment and friendly staff. I used to dread going to the dentist but they make it a little more manageable. 5/5 stars would recommend.

I went here for my initial visit and cleaning. Their office is conveniently located close to subway stations. The office is very clean and the staff is very friendly and professional. Everything went very smoothly all throughout. I didn't have to sit and wait. Dr. Klempner was very informative and had a way of explaining things that can be easily understood. Overall, it was a great experience. Very recommended!

★★★★★ 3 weeks ago **NEW**

Absolutely loved it here! I moved to NYC about a year ago, and I was going crazy trying to find a dentist I trusted. I had such a wonderful experience here and EVERYONE was so friendly and helpful. Everyone also is very intelligent and knowledgeable which was so nice because I had a few questions that were answered! :)

Overall I would 10/10 recommend this place to anyone!!!

6 Common Applications of Cosmetic Dentistry

1.

CHANGING THE SIZE OR SHAPE OF YOUR TEETH

If you are unhappy with the size or shape of your teeth, there are many options for you that fall under the umbrella of Cosmetic Dentistry!

2.

FILLING IN UNWANTED SPACES IN THE TEETH

Large spaces or gaps can leave people feeling unconfident with their smile. Cosmetic Dentistry and solve that for you.

3.

BRIGHTENING THE COLOR OF YOUR TEETH

Whiter, Brighter, and more beautiful teeth!

4.

STRAIGHTENING THE TEETH

Cosmetic dentistry and make your smile straighter than ever before.

5.

REPAIRING BROKEN, CHIPPED, OR DECAYED TEETH

Broken, chipped, or decayed teeth are more common than you might think!

6.

REPLACE MISSING TEETH

Enough that delicious steak, apple or corn on the cob again. No more pain and embarrassment from missing teeth.

All of these issues and more can be resolved with Cosmetic Dentistry. Call us to schedule your “Best Smile Ever” Consultation Package (646) 859-1806

TOP 5 Misconceptions About Cosmetic Dentistry

After talking to hundreds of people just like you we've compiled this list to dispel the most common misconceptions.

- 1. Cosmetic Dentistry Won't Work For Me.** With the right dentist that is - well trained, seasoned professional. They are experienced working with a variety of different types of dental situations. No matter what your situation is, they will know how to address it in a way that can effect real, permanent change for you.
- 2. It Won't Look Natural.** It may be true that at one point in history, cosmetic dentistry solutions did not provide the most natural looking results. However, with today's dental technology, we are more than capable of providing our patients with a beautiful, natural looking smile! In fact, we do it every day. The single most important part of this process is choosing the right dentist - someone with a proven track record, and amazing results to back it up. That's what we have.
- 3. Cosmetic Dentistry is Too Expensive.** The cost of Cosmetic Dentistry is going to depend on which procedure you are interested in receiving. There are some procedures that are extremely affordable, and some that are a bit more of an investment. Whatever the case may be, we have a variety of options available to help you get the smile you deserve at an affordable price.
- 4. Cosmetic Dentistry Damages Natural Teeth.** While some cosmetic dental procedures are a little harder on your natural teeth, there are some that are designed specifically to not harm or damage your natural teeth in any way. During your free consultation, your dentist will go in detail with you about what each procedure entails, and help you make a decision that is best for you and your situation.
- 5. Options Are Extremely Limited.** When it comes to Cosmetic Dentistry, there are a wide variety of options for any cosmetic issue you might have. There are in fact so many different options that it can be difficult to discern which one is right for you without the help of a professional. Your dentist will listen to your unique situation and concerns, and will use that information to help you narrow down your options until you find the one that is perfect for you.

People like you who choose to
take a leap of faith!
